

Navigating True North: Progressing on the Way Philippians' Scripture on the Journey of Transformation

Navigating True North

Over the next five years, the people of Peace will venture on a renewed intentional spiritual journey toward Jesus, our True North. Jesus is the way into a relationship with God and into the full life God intended.

Jesus calls us to intentionally pursue personal **spiritual growth** (all the ways we *Discover* and *Grow* ... through which the Holy Spirit transforms us) and **missional influence** (all the ways that we *Go* including parents guiding their children, being Jesus' ambassador to the workplace, serving in the community, coming along side other Christians, and giving witness of Jesus to family and friends).
